

**REMARKS/ARGUMENTS**

It is proposed to amend claim 1 to insert "mol" between 95 and % to be consistent with the changes made in the same passage as other claims and to insert the units for the etching rate as in original claim 1 but somehow "disappeared" during amendment made to claim 1.

In claim 19, the SrO content should be zero; it is an optional component; note examples 1-4 contain no SrO. In addition, it is not needed to be consistent with claim 1.

It is submitted these changes will not require a further search or substantive consideration as the are minor adjustments made for clarity and claim consistency.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
